

Wish you could
do more for your
community?

**COMMUNITY
POWER**

Power of Together

Now you can by simply
switching power companies.

Switch your
electricity to
**COMMUNITY
POWER**

Pay the
same you
pay now,
or less

And we
will make a
donation on your
behalf out of our
profits not your
pocket

And it really is this easy!

How do we do it?

We do this by keeping our overheads low and being willing to share our profits with the Communities we live in. The latest Herald executive pay survey reveals that the average remuneration received by the heads of the top public firms, which includes the heads of the publicly traded energy companies, surged by 12 per cent in 2015, to \$1.68 million.

We believe the gap between the heads of these companies and the average wage of their employees has become too great.

By reducing this gap, managing our other costs and sharing our profits, we can give back to the Communities we live in and build a Social Enterprise Company that can still be financially sustainable for its employees and shareholders.

Power of Together

Our Mission:

Our aim is to improve the lives of real people in our communities. We do this when you buy your electricity from us and we then share our profits with the charity or community group of your choice.

How do we achieve this?

We do this by providing a means for our customers to donate to the Charity, School, Church, Club, Community Group or Individual of their choice, from their existing spending on their electricity costs, without paying any more (and possibly even less) than they currently pay.

Who can join and donate?

Both individuals and businesses can join Community Power. Donation amounts to the Charity, School, Church, Club, Community Group or Individual of your choice start accruing immediately.

How much am I donating?

For households, the donation amount is 1 cent for every kilowatt hour of electricity your household uses, which means for the typical New Zealand household the donation amount will be between \$80 and \$120 per annum.

For businesses, the donation amount per kilowatt hour will vary based on the amount of electricity used, your meter set up and your current rates. Email a copy of a recent bill to donate@communitypower.co.nz, we will complete a price analysis and advise you how much your donation will be.

I love it! I want to donate without it costing me. How do I join?

1. Go to www.communitypower.co.nz and click on Join Now.
2. Enter the donation plan number below or tell us who you wish to donate to.
3. Complete the application form.
4. Attach a copy of a recent bill, we will switch your electricity supply to Community Power on your current rates (or less), you will pay no more than you pay now.
5. We will notify you when your switch has been completed, your donation will start accruing from the day you switch.

Disclaimer: Some major retailers offer certain customers (mostly their new customers or when they are trying to save a customer from switching away) a really, low rate. We will endeavour to match all rates however we do reserve the right to not switch your supply to Community Power if doing so would mean we would not have the profitability to share with the charity, community group, school, club, society or individual of your choice.
